CYBER EDUCATION DISCOVERY FORUM

Are your middle school students aware of the opportunities and dangers that exist within their world of cyber? Do they know that graduates of high school cyber programs can earn as much as \$60,000?

Bring tools and content into your classroom to spark curiosity in STEM and cyber! **Engineering, cyber education, and liberal arts** content come alive with STEM: Explore, Discover, Apply (STEM EDA) as students make relevant, real-world discoveries through **hands-on cyber projects and discussions**. In this workshop, teachers delve into STEM EDA modules and walk away with **FREE classroom resources and curriculum**.

**TEACHER APPRECIATION WEEK**

Register from **May 1 - May 9** and receive an extra **\$75 off!**

FREE ADMINISTRATOR DAY **JUNE 28, 2017**

Call for more information. (909) 252-4555
